

# INFINITE BANKING CONCEPT

## What if:

You could recapture all of the money you paid for a car, or a home??

You could recover all of the interest you paid on the financing??

You could make the same profits as the banking institution that financed it??

- **ARE YOU REALLY IN CONTROL OF YOUR MONEY??**
- **DO YOU REALLY KNOW HOW BANKS AND FINANCIAL INSTITUTIONS REALLY MAKE MONEY??**
- **ARE YOU TIRED OF PAYING A BIG PORTION OF YOUR HARD EARNED MONEY IN INTEREST EVERY MONTH TO FINANCE YOUR HOME AND YOUR CAR??**
- **DO YOU WANT TO KNOW HOW TO BEGIN CREATING YOUR OWN BANK TODAY SO THAT ALL THAT PRINCIPAL AND INTEREST YOU KEEP PAYING GOES TO YOU INSTEAD OF THE FINANCIAL INSTITUTION??**

Banking is THE most important business in the world! Without it, all business comes to a screeching halt. Whenever a business transaction takes place, money must flow from one part to another in a relatively short time or, otherwise, nothing takes place. That flow of money must come from a supply source, a reservoir. That is the essence of what the banking business is all about; some ONE or some ORGANIZATION has control of a pool of money that can (and must) flow, at a cost, to meet some need.

The volume of money paid annually by the average American just towards the cost of financing our cars, homes, etc... is staggering. It is this volume of money flowing out of your money supply to others that is the real key to achieving financial independence. If you can shift this volume of money going to the other financial institutions to your own personal banking system you would achieve your financial independence at a much earlier age than you could under the other banking institutions plan.

The real question is how much of the banking function do you control as it relates to your needs? Only by becoming your own banker can you control 100% of your needs. You will always be subject to the leash of the financial institutions as long as you allow them to control your banking function.

You have a choice! You can sit idly by and see thousands, even millions, of dollars slowly slip through your fingers like the rest of the world, or you can take action today to find out how you can become your own banker and not end up like the person next door who can never seem to get out of debt and really enjoy life.
